25 Years Aurion: Anniversary Events May 2022

AURION celebrated its 25th anniversary with two events:

On May 19th guests from all over Germany met in the beautiful setting of the “Klostercafé’s Winterrefektorium” in Seligenstadt, where the abbot of the Benedictine abbey received his guests in winter for more than 200 years.

After a short welcome by Joachim Scherer...

25 Years Aurion: Anniversary Event May 2022

Prof. Günter Schultes of HTW Saar reported on their work on sensor layers with high strain sensitivity.

25 Years Aurion: Anniversary Event May 2022

Then Dr. Ina Ostermay from Ferdinand-Braun-Institute Berlin introduced us to sputtered Iridium Gate technology for GaN microwave transistors.

25 Years Aurion: Anniversary Event May 2022

Dr. Peter Spiller from FAIR@GSI Darmstadt described FAIR, a major facility for basic research in Physics.

25 Years Aurion: Anniversary Event May 2022

Prof. Manfred Stollenwerk from TH Aschaffenburg closed the session with the introduction to his laboratory for coating technology.

25 Years Aurion: Anniversary Event May 2022

The audience was split in two groups, where one group went on to a guided sightseeing tour through the medieval town of Seligenstadt and the other group followed a company tour at AURION. Later-on the two groups switched.

25 Years Aurion: Anniversary Event May 2022

A relaxed dinner in the historic ambience of “Klostercafé’s Winterrefektorium” completed that first event.

Two days later, the AURION team held an open house for family members and friends, the so-called “AURION family day”.

More than 50 parents, spouses, children, friends enjoyed company tours, live demonstrations and presentations as well as snacks, drinks and nice conversations.

All agreed that both events have been a full success and need to be repeated!
